Dear Mr. Speaker Anthony Rendon:

Your timely recognition and strong condemnation of the atrocities that are taking place in Iran by the brutal theocratic regime was highly inspiring and meritorious.

We, the dissidents who are fortunate enough to live in the US and especially California, are sincerely striving to be the voice of the people in Iran who are desperately trying to be heard despite the regime's harsh and barbaric response to the protestors' demand for freedom, democracy and the right to self-determination.

Yet the courageous youths, especially the women, will not be silenced and as you mentioned, their hope and determination only grow stronger.

Your moral conviction and support for the suffering people of Iran are commendable and very much appreciated.
